

❓ IWA Question Forming ❓

- ❖ Are you able to synthesize your argument with the stimulus sources?
 - Even if the connection is small, are you able to thoroughly explain and address the association with a high level of understanding?
- ❖ Does your question address the complexity behind the issue?
 - Do you form the argument by interpreting evidence in the context of your question?
- ❖ Start your question with something along the lines of should, would, or does as the IWA is a written argument.
- ❖ Before starting to research, ensure your question is researchable.
 - Are there plenty of scholarly sources to help you gather information and data on the topic?
- ❖ Does your question allow your paper to be argumentative?
 - Make sure the topic or issue has multiple sides as you will need to address both sides in your argument.
- ❖ Is there enough information to support points on both sides of the argument?
